In addition, the production locations were expanded to enable mass production of standard components and now served several customers, which was accompanied by increasing exports to Western Europe especially Germany. This thesis discusses the sourcing process between the main parties involved, that is, the buying company, possibly a local subsidiary, and the supplier. FSBlog. There remains scope for reputational damage and responsible business leaders are managing these risks accordingly. The Works council, quite accurately, viewed the system at a minimum as an unnecessary marginalization of Works council competences in social and wage payment issues. It describes an amalgamation of local, national and, to a certain degree, international sourcing.
