Though custom playlists are recommended to them via complex algorithms, users are not prevented from stepping out of their bubble, connecting with new artists and fans, and developing a new taste in music. Blog Statshits.

Thesefactorshavebeenrevolutionizedthroughtechnology. This research paper addressed how technology has changed cultural relationships consumers have with music. While the music itself is the primary form of the relationship, the creator becomes the bodily symbol of the art they are creating. Now, whether it's Javanese gamelan music or 13th-century Christmas tunes, i Media. Users had a more continuous listening experience when utilizing Spotify through a desktop, but significantly more sessions on the mobile app.
