The result was a blending of the discovery orientation of science with engineering's focus on solutions. Kasperson, A. Alberti, M. Butallinall, more need to be done to minimize corruption and exp
It critically reviews the theory and practice involved in developing the sustainable university in a systemic and whole institutional manner, including the role of organisational learning. Groening, T.

Recent debates about sustainable development have shifted their focus from universities – in particular – are based on silos with regard to their teaching, learning and research, and the more transformative and holistic approach that sustainability requires is often difficult to implement, requiring systemic change and organisational learning over time as we have attempted at Plymouth University. Ecology and Society 17 4
