Bob hunter said he was quickly taken into the inner circles. So solar energy was collected and stored for 30 times the length of time Homo genus [Us] has been on earth.

BruceC, it is still the same organization. More power to the brave activists. The ship was refloated, but she could not be repaired. Like that small group of protestors who sailed towards Amchitka, we remain independent. And all the mechanical engineers, thinking of the gigantic projects they could be involved in to capture and store CO2, stayed silent...

We humans are but one of thirty million species weaving the thin layer of life. If the gods really wanted to destroy Patrick Moore, they would first have made him a founding editor of The Paris Review.
