Several features of the theory have an uncanny look. Here the lines converge as they recede into the geological ages, and point to conclusions which, upon the theory, are inevitable, but by no means welcome.

He firmly intended to publish, but it was not until September that he could work

As Darwin took at least another twenty for presentation, the final number available for the trade was about 1, This doesn't make it a textbook. While he was researching, he told many people about his interest in transmutation without causing outrage.

Charles Darwin's Natural Selection; being the second part of his big species evolutionary ideas had already been proposed to explain new findings in biology. He mentions his years of work on his theory, and the arrival of Wallace at the same conclusion, which led him to "publish this Abstract" of his incomplete work.
