APT, Inc. They may not be recognised as such, however, until the assets are disposed of in an exchange transaction.

For example, IFRS is not as strict on defining revenue and allow companies to

However, it has been debated whether or not de facto harmonization has occurred. The two accounting standards can show quite different results for the same company, which is why convergence proponents advocate using one global accounting standard. The way standards are set, how issues are resolved and who is influential in the process has led to a rich stream of research.

We also would benefit from the public's views regarding whether any of the sta
