Not Helpful 8 Helpful 9. If you feel a knock on The Ghost Shrimp back door, open it right away, no matter where you are. Lower the end with the rubber band over the bowl with the shrimp, and allow water to slowly drip into the bowl.

Dip a flexible tube into the tank, and twist a rubber band tightly around the other end. The Marvelous Misadventures of Flapjack. Just pay attention to where the shrimp are and if one starts to get sucked in, plug the other end with your finger to stop the suction.

Second, make your work as personal as possible. Covered a variety of topics and actually quite easy to distinguish the sex. I've never seen any of these very peaceful fish harass the ghost shrimp, not even my semi-neurotic leopard danios who spend a good part of every waking day chasing each other through out the tank.
