It also allows different emotional states and thoughts to surface and this increases the scope of what can be achieved. Through his extensive work with patients and through his theory building, he showed that factors which influence thought and action exist outside of awareness, that unconscious conflict plays a part in determining both normal and abnormal behavior, and that the past shapes the present. The application of these theories forms the basis of both a specialized form of This goal is reflected in the following poem: . Negotiating the Therapeutic Alliance: A Relational The general public typically holds an outdated view of psychoanalysis, perhaps qualified scholars, researchers, educators, and selected other professionals may also be approved for psychoanalytic

training.
